

a data processor receiving the signal and generating a control signal to control the graphic object generated by the computer in relation to the movement of the sensing element.

28. A system according to claim 27 wherein the finger mount comprises a clip comprising flexible and separable portions.

29. A system according to claim 27 wherein the sensing element is a position sensing element.

30. A system according to claim 27 wherein the graphic object is a cursor.

31. A system according to claim 30 wherein the cursor is capable of interacting with a virtual object or a computer program.

32. A system according to claim 27 further comprising a support structure adapted to apply a force reflection to the body part.

33. A system according to claim 27 wherein the sensing element comprises a transmitter.

34. A system according to claim 33 wherein the transmitter is wireless. —

#### REMARKS

Claims 1-8 have been canceled without prejudice or disclaimer. Newly added claims 9-34 are presently pending.

The amendments are supported by the specification and the original claims. For example, new claims 9-34 are supported at least by Figures 13A through Figure 20C. No new matter has been added.

Reconsideration of the present case in view of the above amendments and the remarks herein is requested.

The Commissioner is hereby authorized to charge any additional fees which may be required by this paper, or to credit any overpayment, to Deposit Account No. 06-1300 (No. A-65053-3/RMA)

RESPECTFULLY SUBMITTED,  
FLEHR HOHBACH TEST ALBRITTON & HERBERT, LLP
